Great Sally. Yes, I think that it would be appropriate to send that to ADEC as well. While they are delegated authority over the Title V program so that they can draft permits, they are not delegated for the general implementation of CISWI, so it is required that compliance information, notifications, and reports be submitted to the Region. However it is still important that they are aware of things for the sources they hold Title V permits for. There might even be a permit condition that you are subject to that could require the submission of the test protocol to ADEC, but I really do not know that.

One copy for our office will be sufficient.

Thanks

Hi! Thank you for contacting me. We weren't sure who to send it to since the unit is on our current operation permit. Is it okay if we send it to ADEC as well? How many copies do you need?

Sally McLeod

Hi Sally, this last Wednesday the Alaska Oil & Gas Association gave a presentation to Acting Office of Air and Radiation, Assistant Administrator, Janet McCabe and staff members of the Senate Committee on Energy & Natural Resources on the Small Remote Incinerator category of CISWI (Commercial Industrial Solid Waste Incinerators).

Separate from that discussion about future testing, it was mentioned that you would soon be submitting a testing protocol for unit located at the Pogo Mine to Region 10 for review. I wanted to reach out to you to let you know that if you have any questions I am the Regional point of contact for the CISWI rule, and that you can address that testing protocol to my office, my contact information is below. Thanks.
